Professional Summary

Second-year Information Technology undergraduate with hands-on experience in full-stack web development using the MERN stack. Proficient in building scalable web applications and RESTful APIs using JavaScript and TypeScript. Experienced with cloud deployment and database-driven systems. Strong foundation in data structures, algorithms, and problem-solving. Actively seeking software development internships.

Education

2024 – 2028

**Bhagwan Parshuram Institute of Technology (BPIT),
GGSIPU, Delhi**

Bachelor of Technology in Information Technology

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, Python
- **Frontend Technologies:** React.js, HTML5, CSS3, TailwindCSS, Framer motion, Next.js
- **Backend Technologies:** Node.js, Express.js
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Tools & Platforms:** Git, GitHub, Docker, Vercel, RESTful APIs
- **Core Concepts:** Data Structures and Algorithms, System Design, Authentication, API Design

Projects

FormBuddy – Form Management Web Application [Live Demo](#) | [GitHub](#)

- Developed a full-stack form builder application entirely in TypeScript using React, Node.js, Express.js, and PostgreSQL.
- Implemented secure user authentication and role-based access control.
- Built dynamic form creation, real-time preview, and response collection features.
- Designed RESTful APIs and deployed the application on Vercel using cloud-based hosting.
- Followed modular backend architecture to improve scalability and maintainability.

Movie Search Website [Live Demo](#) | [GitHub](#)

- Built a React-based movie search application using the OMDb API.
- Implemented debounced search to reduce API calls and improve performance.
- Designed a responsive and user-friendly interface using modern CSS practices.

Digital Marketing SaaS Landing Page [Live Demo](#) | [GitHub](#)

- Created a responsive SaaS landing page using React, HTML, and CSS.
- Optimized layout for performance, accessibility, and cross-device compatibility.

Experience

Tech Team Member — NAMESPACE Community

Aug 2024 – Sep 2025

- Supported technical operations for Web3-focused hackathons and developer events.
- Assisted participants with debugging smart contracts, dApps, and frontend integrations.
- Collaborated with cross-functional teams to ensure smooth execution of workshops and events.
- Gained exposure to blockchain development workflows and developer tooling.
